

Developed in response to numerous requests for a front re-lamping version of the classic Sunbeam B this exquisitely engineered product, machined from solid aluminium and steel components, is fully directional and comes with a reduced depth anti-glare baffle producing a 'dark light' effect for visual comfort and minimal glare. The body is housed in a retaining ring that, on re-lamping, is left in the ceiling acting as a finished edge to the cut plaster board. See 'other bits you will need' section for glass filters, louvres, firehoods, LED drivers and transformers.

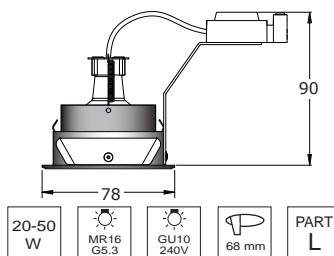

#### SUNBEAM F 35 PRODUCT CODE:

2067- □□□ (fitting only)

7267- □□□ (fitting inc. M221 lamp and transformer)

6267- □□□ (12v 1W LED fitting excluding trans)
